

Gold Coast Lawyers celebrate GOLD!

Local law firm Delaneys Lawyers, are celebrating the return of Beijing Gold medal winning Olympian Duncan Free today.

Partners Tim and Anthony Delaney are proudly claiming their contribution to the Gold Coast's outstanding medal tally due to their financial support of the local rowing heroes Olympic campaign.

A close friend of the Delaney brothers' for the past two decades, their relationship with the gold medal winner spans back to when they attend TSS and also rowed together, back in their senior year of 1990 in the 1st viii.

In fact, both Tim and Anthony were trained by the same coach as Duncan's father, Reg Free, also a previous rowing Olympian, and all had auspicious beginnings in their rowing careers.

Anthony narrowly came in second to Duncan in the 2000m Open Single Scull in the Queensland Championships, and the two also rowed together in the Double Sculls. In this race, the duo actually finished first, but were stripped of the place after being disqualified for having a 100% crew change when only allowed a maximum of 50% crew change from the nominations.

Duncan, Anthony, local property developer Tom Ray and a few other local rowers also started the Bond University Rowing Club and competed in the Queensland Championships together. The Club was initially financed by Tim and Anthony's father, Greg Delaney and the late Brian Ray, father to Tom.

Furthermore, Delaneys Lawyers, of which Tim and Anthony are partners, have provided legal services to Duncan and Reg over the past 20 years.

The firm located in Bundall has considerable experience in high volume conveyancing, and specialises in Property Law and Development, Leases, Business Transactions, Personal Injuries, Commercial Litigation, and Finance and Banking.
